

My Preceptor is Not Attached to My Shift

What do I do?

“Awaiting Preceptor Confirmation”

The screenshot shows a software interface with a teal header bar labeled "Interventions" and a close button (X). Below the header is a grey bar with diagonal stripes containing the text "Current Report Type: Field". A larger grey bar with diagonal stripes follows, containing the text "THIS IS THE SHIFT YOU ARE MODIFYING". Below this are three buttons: "Create a new shift" (dark blue), "Close this shift" (orange), and "Switch shifts" (dark blue with a refresh icon). The main content area is white and contains the text "No patients exist" and a dark blue button labeled "Add a new patient". At the bottom, a grey bar contains a red warning icon and the text "AWAITING PRECEPTOR CONFIRMATION". Below this is a red message: "Until a Preceptor has been confirmed, you will not be able to LOCK PATIENTS or CLOSE THIS SHIFT." and an orange button with a wrench icon labeled "Click here for more options". A blue oval highlights the warning message and the "Click here for more options" button. The text "Isolated Live Skill" is visible in the bottom right corner.

Interventions

AWAITING PRECEPTOR CONFIRMATION

Denton Fire Department - Station 1

What are my options?

- RE-SEND PRECEPTOR INVITATION via (text/email)
- ASK PRECEPTOR TO RE-ENTER PERSONAL DETAILS (pass this device to preceptor)
- Request Sterling to **CLOSE THIS SHIFT** for you

WARNING: no credit for skills or patient contacts can be given without preceptor approval

- Send us a **MESSAGE** (opens a support ticket)

Cancel

Until a Preceptor has been confirmed, you will **not** be able to **LOCK PATIENTS** or **CLOSE THIS SHIFT**.
